

Capacitive sensor

Capacitive sensor

- Use together with valve unit for level detector (0124051).
- Stops the conveyor when level in receiving vessel is reached.

Technical data

Description	Unit	Value
Material		EN 1.4305, PTFE
Temperature range	°C	-25-70
Weight	g	270
Cable		4x 0.50 mm ² L=2m
Voltage	V	10-35 V DC
Safety classification		IP67
Current	mA	max 250 mA

Ordering information

Description

Art. No.

Capacitive Sensor M32 4-wire DC PNP

0124098
